Encouraged students to ask questions, disagree, and express their own ideas.					
Provided evaluation that was related to the most important points of the course.					
Offered clear rationale for evaluation.					
Related course material to the pastoral ministry.					

## Focusing on this course alone:

	Hardly Ever	Occasionally	Sometimes	Frequently	Almost Always
Examples, projects, etc., were reasonable and fair in the time needed to complete.					
Assignments were relevant to the course objectives.					
As a result of taking this course, I have a more positive feeling toward this software.					
This training was clearly part of the larger whole in pastoral formation.
